Question

You heard two classmates having this conversation:

Classmate A: I dislike online learning! It has so many disadvantages.

Classmate B: For me, online learning has many good points. I like it a lot.

In about **200** words, write about online learning and what you think about it – whether you feel more like Classmate A or Classmate B. Give reasons to support your answer.

Online learning is something ~~we~~ you do in a computer or a phone or an iPad. You do not meet your ~~the~~ colleagues or your teacher or your classmates in person. You can do the online learning at home or anywhere you like (so long as there's wifi). I don't like online learning. You can only ~~stay~~ stay at home and can not go anywhere else. I don't like staying at home all the time. It's like being trapped in a cellar. I love the fresh air outside the house. I couldn't sleep if I haven't went out that day. That happens regularly now because of the Corona Virus outbreak. We all have to stay at home ~~to~~ and do online class and I don't like it. It's boring and nothing is fun. ~~But~~ I like school very much when I could meet my friends and classmates. I look forward to go to school every day. There's always new things going on and about in the classroom. But when our school started to do online class, nothing's fun. All the teachers (even the most humorous ones) never tell a single joke again. They just kept drooling and talking a on and on. In school, we could ~~whisper~~ ^{whisper} ~~in~~ to our classmates without anyone knowing, but in online class, we never get the chance to talk, even ~~the~~ to the teachers. School is so boring now, without laughter and ~~so~~ joy. The worst part about online class is that I can't see anything clearly and I can't stay ~~focus~~ focus. Because school is now so boring,

that I almost fell asleep in every class. There's another thing that's bothering me and ~~is that~~ it's that I need to look at the iPad (in order to go to classes) for like six hours each day and my eyes are exhausted. ~~Now~~ I already have short-sight since 2016 and it's gotten much worse. It's now three hundred degrees and I can't see a thing without my glasses. It got my mother worry sick and got me in a bad mood. ~~I~~

There's ~~another~~ another bad thing about of online class is that I need to show my background. That means I have to show my house which I do NOT like. I know that I could use a fake one but the quality for of it was very low. ~~Some things~~ Sometimes, I can't see my hair and ~~some things~~ it shows someone who usually butt's in while I'm in ~~online~~ online class (it's usually my sister.) The most awkward moment is that when the teacher asks you a question and while you're ~~answer~~ answering, somebody just came in your camera like it's what it's ~~usually~~ usually done (acting like nothing happened) and the teacher said, "Who's that?" And you just sit awkwardly with everyone staring at you. It happened to me more that six times already but I'm still not used to it. Besides that, it's very inconvenient to use online classes. When you the Wifi is not well, the whole screen just turns black, and that always happens when the teachers are telling ~~in~~ you important stuff. And when they finish, the Wifi is back to normal again. It normally happens like ~~that~~ this: "So today, we are going to tell you about the test we're doing. We will do the test in—". Then, the screen turns

black. ~~Then~~ Five seconds later, "the Wifi is back to normal." —

All clear? Let's start the lesson now!" It's like the most annoying thing in online classes and it happens to everyone.

I don't like online classes because they are inconvenient and bad things always happens. It's also not good for eyes or our healthy. Also, there's nothing fun going to online classes. That's all, thank you for reading!
